

Fairtrade: a World of Difference

Fair trade balloon debate

It's worth buying
fair trade things
even if they're
more expensive

Everyone in the
world should
have the same
opportunities.

Fair trade
will make
the world a
better place

People living
on the other
side of the
world have
nothing to do
with me

If we buy fair
trade we're not
helping climate
change because
they're flown in
from all over
the world

More
products
should be
made fair
trade

People should
be given the
chance to help
themselves
wherever they
are in the world

It's important
that children
and young
people learn
about fair
trade

I shouldn't
have to help
producers
in another
country. They
don't help me
